

TECRA COIN

SMART DEPOSIT

Tecra Space

What is it?

TecraCoin Smart Deposit is a staking service of that allows you to multiply your coins effortlessly. By setting up TecraCoin Smart Deposit you will receive bonuses in the form of additional TCR, which will be transferred to your account at the end of the service. The amount of the bonus will depend on the number of coins that have been placed in the Smart Deposit and the duration of the service.

Tecra Space

Why should I use it?

- **High return.** The interest rate offered by TCR Smart Deposit is similar to the interest rate on Masternodes - up to 42% annually.
- **User-friendliness.** No specialist knowledge is needed for this and even the most novice users can start the service and start earning money with just a few simple steps.
- **Convenience.** After the deposit is created, you don't need to do anything else. Simply wait for the TecraCoins to multiply themselves. No upgrades or additional effort on the part of the coin holder are required.

Tecra Space

How it is secured?

Exactly the same as the wallet. Coins allocated to the deposit are **not taken from the user's account** (they still are visible in the account), but only temporarily frozen. You can unfreeze them at any time, but you do it before the end of the set period, you will not get your interest.
