Idea

What is Tecra Space?

- Tokenization platform for innovative projects
- A new method of raising funds for the development of unique products
- A place for investors from all around the world

Space Tokens - a type of tokens made by creators for the purpose of fundraising

tecra.space | marketing@tecra.space

Tecra Space

What is a token?

- Space Token is a digital, encrypted confirmation of a transaction carried out on the platform
- Tokens are bought by investors with the TecraCoin cryptocurrency
- You, as the creator, set its name, price and quantity

FOR EXAMPLE: if you want to raise 1 million dollars, you emit 1 million tokens, with each token having the value of 1 dollar.

TECRA SPACE
science, not fiction

Tecra Space

The process of fundraising

- After sending in your application and the project realization plan (including milestones), the chosen projects are listed on our platform
- You create your project token and begin the fundraising
- After successfully reaching your fundraising goal, you can begin the project realization stage
- When you receive your first tranche for the project development, your goal is to reach the first milestone from the plan you have previously presented
- After reaching the milestone, you get the first tranche from the investors
- Along with reaching consecutive milestones, you receive further tranches

Tecra Space

Benefits for creators #2

- A simplified process of raising funds
- Professional help with project commercialization
- Freedom to personalise the agreement between creators and investors
- Low platform fee:

Tecra Space's fee distribution

3%	distributed among TecraCoin holders who registered on the platform
2%	Amount assigned for buying and burning TecraCoins out of the market (thanks to this process we reduce the amount of cryptocurrency in circulation and increase its value)
2%	Tecra Space's commission fee
