Purchaser agrees to buy, and Company agrees to sell, Tokens in accordance with the following terms:

1. Acceptance of of Terms and Conditions of Token Sale and Use and Whitepaper

These Terms shall be effective and binding on all parties upon the earlier of (i) you clicking the check box and the 'COMPLETE YOUR ORDER' button contained in the application form to purchase MQLS, or (ii) you sending any unit of acceptable currency or cryptocurrency to the Company's or The Platform bank account or digital wallet address (as relevant) in accordance with the Token Purchase Instructions (as defined below).

The Company has prepared the this Terms and Whitepaper, which are available at <https://tecra.space/molecooles#documents>, describing matters relating to the Company, The Platform and The Tokens. You acknowledge that you have read and understand the Terms and Whitepaper and have no objection to their contents. Information in the Whitepaper is of a descriptive nature only and does not, unless explicitly incorporated herein, form a part of these Terms.

Unless otherwise stated herein, these Terms govern only the purchase of Tokens from the Company during the Token Sale. The use of the Tokens will primarily be governed by other applicable terms and policies, which are currently NOT PREPARED. However, the provisions of this Agreement will be applied in the future terms and conditions of the e-commerce store offered by Company. We may, at its sole discretion, add new terms or policies to the Terms of Service and update them from time to time in accordance with the modification procedures set forth therein. In the event of any conflict with these Terms, the Terms of Service shall take precedence concerning any issues related to the use of the Tokens.

2. Purpose and Use of Tokens

The Company intends for the Tokens to be sold to fund the development and maintenance of an ecosystem consisting of a Beauty Biohacking Nutraceuticals e-commerce platform and associated applications - AI app and skin progress quantification (the “E-commerce”) by Molecoodles OU an affiliate of the Company, and the smart contract connected to the E-commerce (the “MQLS Smart Contract”). The E-commerce is more particularly described in the Whitepaper relating to the Company and available at <https://teca.space/molecoodles#documents>. The Tokens may be sold or exchanged for cryptocurrencies on an decentralized exchange, if and/or when any such exchange agrees to list Tokens, which in no case can be assured or guaranteed in any way.

Purchase, ownership, receipt or possession of Tokens carries no rights, express or implied, other than the right to use the Tokens as a means to participate in the E-commerce as provided in these Terms and the Terms of Service (as defined below). In particular, you understand and agree that, save as expressly set out in these Terms, the Tokens do not represent or confer any ownership right or stake, share, security or equivalent rights, or any right to receive future revenue shares, intellectual property rights, or any other form of participation in or relating to the e-commerce or the Company, the Associated Parties and its or their corporate affiliates, subject to limitations and conditions in these Terms and other applicable terms, conditions or policies, which may and likely will be implemented by the Company and other participants in the E-commerce at a later date. Tokens are not intended to be a loan contract, digital currency, security, commodity or any other kind of financial instrument. You are purchasing Tokens solely for the purpose of participating in the E-commerce, and you are aware of the risks associated with the Company and the Tokens. You are not purchasing Tokens for any other purpose including, without limitation, any investment, speculative or financial purpose. You acknowledge and agree that the E-commerce is in an early stage of development and may undergo significant changes over time.

The tokens issued by the Issuer (The Company) are intended solely for the purchase of specific products and services offered directly by the Issuer. In this case, these are mainly products such as dietary supplements and consulting services. These tokens are designed as a tool to provide users with access to these goods and services within the Issuer's ecosystem. A key aspect of MQLS tokens is their close connection to the Issuer's business activities. This means that the token holder has the right to exchange them exclusively for products or services offered by the Issuer. These tokens do not serve any investment or payment functions. Their sole purpose is to provide holders with access to specific goods or services offered by the Issuer, usually under preferential conditions. Their value is not based on expectations of price increases or potential financial gains from trading on crypto-asset exchanges. These tokens also cannot be used as a substitute for traditional currencies or other payment instruments. The token holder can only use them to purchase the Issuer's goods and services. The value of the token does not depend on supply and demand in the secondary market but rather on its direct use within the Issuer's ecosystem. These tokens are strictly for utility purposes. The function of the tokens is limited to providing holders with access to the Issuer's offerings, not to generating capital gains or serving as a payment instrument.

An important point, however, is that the Issuer reserves the right to acquire tokens on the secondary market, including on the decentralized exchange Uniswap, solely for the purpose of removing them from circulation (so-called "burning"). The buyback from the secondary market will range from 2% to 20% of the Company's (The Issuer's) annual revenue. The exact buyback amount is specified in the table on the website: <https://teca.space/molecoodles#tokenomics>. The purpose of the buyback is to limit the loyalty program by removing purchased MQLS tokens from circulation through burning, by sending them to the burn address: `0xdEad000000000000000000000000000000000000`. Burning of utility tokens may be applied, for example, to phase out a loyalty program or reduce the supply of tokens after a specific stage of the project has been completed.

3. Rights Attached to the Tokens

It is currently anticipated that the Tokens shall, subject to the relevant holder of such Tokens having first satisfied the Company's Compliance Procedures (defined below), carry the following rights:

A. Access to products or services on Molecooles E-commerce:

MQLS constitutes a type of crypto-asset that grants users the ability to acquire goods or services. The MQLS token falls within the scope of a utility token as defined under Article 3(1)(9) of MiCA, as it provides access to products, specifically nutricosmetics, through the Molecooles E-commerce platform, or services, namely beauty bihacking consulting, offered only by the issuer - The Company.

B. Participation in Molecooles Community Company Tier program:

The MQLS tokens serve as loyalty points that can be earned in the form of cashback for every purchase made with fiat currencies in the Molecooles E-Commerce. MQLS tokens accumulated in the customer's account, accessible through the 'Panel' after logging in, will unlock tiers that grant additional benefits. To take advantage of these tiers, MQLS tokens must be locked. Spending tokens to access products or services may cause the user to lose their achieved tier. To prevent this, users will have the option to lock MQLS tokens to secure their tier within the Molecooles Community Company. A detailed description of the tiers and their benefits can be found in the Whitepaper.

4. How to Participate in the Token Sale

In the event that, due to the deduction of gas or other transfer fees, the amount of the Payment Currency that the Company receives from you is greater or less than the amount of the Purchase Price associated with the number of Purchased Tokens selected by you in the Portal, the Company will increase or decrease your number of Purchased Tokens in accordance with the amount actually received by the Company and you agree to any such adjustment of the number of Purchased Tokens. However, the Company reserves the right to extend the Token delivery deadline by up to an additional four (4) weeks if necessary due to technical difficulties, (i) and (ii) one (1) week after you provide complete and accurate information and documentation requested by the Company in connection with the Compliance Procedures (provided, however, that the Company reserves the right to extend the Token delivery deadline if it determines, in its sole discretion, that additional time is advisable to analyze the information and documentation received in connection with its Compliance Procedures and conduct related compliance activities). For the avoidance of doubt, any extension pursuant to these Terms shall not affect the obligation of the Company and you to respectively make and take delivery of the Purchased Tokens.

5. **Rejection and refund policy**

Your purchase of Tokens during the Token Sale is final. You can cancel the purchase within 14 days from the purchase date. After 14 days, your purchase cannot be refunded, except as provided in these Terms or as may be required by applicable law.

The Company has the right to reject your offer to purchase Tokens, in whole or in part, without giving a reason for that rejection and in those circumstances, the cryptocurrencies and fiat submitted by you will be returned to you in manner described above.

Under no circumstance whatsoever or howsoever is the Company responsible for any losses, costs, or expenses relating to lost access credentials.

8. Taxation of Tokens and Taxation Related to the Token Sale

The Purchase Price that you pay for the Tokens is exclusive of all applicable taxes. You are responsible for determining what, if any, taxes apply to your purchase of Tokens, including, for example, sales, use, value added, and similar taxes. It is also your responsibility to withhold, collect, report, and remit the correct taxes to the appropriate tax authorities. The Company is not responsible for withholding, collecting, reporting, or remitting any sales, use, value added, or similar tax arising from your purchase of Tokens.

The Purchaser bears the sole responsibility in determining if the purchase of Tokens, or the potential appreciation or depreciation in the value of Tokens over time has tax implications for the Purchaser in the Purchaser's relevant jurisdiction.

By purchasing Tokens, the Purchaser agrees not to hold any of the Company, its affiliates, shareholders, directors, or advisors liable for any tax liability associated with or arising from the purchase of Tokens.

9. Force Majeure

12. Future migration of Tokens

The Tokens are being created as ERC-20 standard compliant tokens on the Tecra blockchain protocol. We reserve the right to migrate the Ethereum-based Tokens (the "**Pre-existing Tokens**") to another protocol and to generate replacement Tokens on the new protocol (the "**Replacement Tokens**") in the future, should we determine, in our sole discretion, that doing so is necessary or useful to the operation of the Platform. Should we decide to migrate the Tokens, we may no longer provide support for the Pre-existing Tokens relating to the Platform or any other operational matters, except with respect to the migration process. If the Tokens are migrated to another protocol, the practical utility of Pre-existing Tokens will likely diminish rapidly once Replacement Tokens are created and in use by a significant portion of Platform participants. You acknowledge and agree that for you to continue to participate in the Platform or obtain utility from the Tokens you may need to convert the Tokens you receive to Replacement Tokens in the future.

13. Anti-Money Laundering

The Purchaser represents and warrants to the Company that:-

- it is not a Prohibited Person (as defined at the end of Exhibit A);
- no person or entity that controls, is controlled by or under common control with, the Purchaser is a Prohibited Person;
- neither the Purchaser, nor any person having a direct or indirect beneficial interest in the Purchaser or the Tokens being acquired, is the subject of sanctions administered or enforced by any country or government (collectively, "**Sanctions**") or is organized or resident in a country or territory that is the subject of country-wide or territory-wide Sanctions; and

If the Beneficial Owner is itself an entity,

- o it has carried out thorough due diligence to establish the identities of those Beneficial Owners;
- o based on that due diligence, the Purchaser reasonably believes that no Beneficial Owner is a Prohibited Person;
- o it holds the evidence of those identities and status and will maintain all of that evidence for at least five years from the date of the Purchaser's complete redemption from the Company; and
- o it will make available that evidence and any additional evidence that the Company may require upon request in accordance with applicable regulations.

The Purchaser acknowledges to the Company that If any of the representations and warranties in the preceding clause ceases to be true or if the Company no longer reasonably believes that it has satisfactory evidence as to their truth, despite any other agreement to the contrary, the Company may, in accordance with applicable regulations, be obligated to do one or more of the following:

- to take certain actions relating to the Purchaser's holding of Tokens;
- to report that action; and
- to disclose the Purchaser's identity to OFAC or any other authority.

To the extent that the foregoing release endures for the benefit of any director, officer, employee, delegate, agent or subcontractor (whether existing or in the future) of the Company, Purchaser acknowledges, and by accepting this application the Company agrees, that the Company holds the benefit of release on trust for that person.

In order to comply with the anti-money laundering regulations applicable to the Company, the Purchaser acknowledges to the Company that Tokens will not be issued until the Company is satisfied that evidence regarding the source of the purchase amounts and the identity of the Purchaser is satisfactory.

If, as a result of any information or other matter which comes to his attention, any person resident in the EU knows or suspects or has reasonable grounds for knowing or suspecting that another person is engaged in criminal conduct or is involved with terrorism or terrorist property and the information for that knowledge or suspicion came to their attention in the course of business in the regulated sector, or other trade, profession, business or employment, the person will be required to report such knowledge or suspicion to: (i) the European Securities and Markets Authority ("ESMA") or a nominated officer (appointed in accordance with the ESMA).

By agreeing to these Terms, the Purchaser consents to the disclosure by or on behalf of the Company of any information about the Purchaser to regulators and others upon request in connection with money laundering and similar matters, both in the European Union and in other jurisdictions.
